The Central Government has, however, written to the State Governments to implement the labour laws in the BPO sector.

(c) and (d) A micro-level study relating to labour in Business Process Outsourcing was conducted by one of the Associate Fellows of the V.V. a limited geographical cluster of 277 customers care agents from 6 call centres in NOIDA (UP).

The study evaluates the perceptions of work experience of the call centre agents to throw light on the potentialities and possible problem areas of human relations. It does not represent the view of all the actors in the industry and does not purport to represent the entire BPO sector in the country. Moreover, the views expressed in the report are of the concerned researcher and not of the Institute or of the Ministry of Labour and Employment.
